## Majority of Texas students pass STAAR® end-of-course exams

AUSTIN — A majority of Texas students were successful in completing the five

In statewide results for the 2016-2017 school year for all testers, Texas students posted the highest statewide passing rates above 90 percent in U.S. History. Results for all students tested for 2016-2017 are as follows:

Course	2016-2017
Algebra I	82%
Biology	85%
U.S. History	92%
English I	60%
English II	62%

Texas students are required to pass five STAAR end-of-course exams — Algebra I, English I, English II, Biology, and U.S. History — to receive a high school diploma. However, a student who failed an end-of-course assessment for no more than two courses can also receive a Texas high school diploma if the student has qualified to graduate by means of an Individual Graduation Committee determination.

Results are available from your local school districts and charter schools. To review state-level reports, visit the Texas Education Agency website <http://tea.texas.gov/staar/rpt/sum/>
