Review and Adoption Processerview

There is a specific process that blishers or providers of instructional contemust follow to participate in the Texas State Board of Educatio (SBOE) nstructional materials review and adoption ocess

The SBOEstablishesan adoption cycle for subjects in the foundation curriculum and the enrichment curriculum (Texas Education Code [TEC], \(\)2). The cycle is periodically adjusted based on the

less than 100 percent TEKS coverage with the opportunity to update the coverage percentage for adopted materials (19 TAC §6.75(I)).

- x Anything that is covered in the student materials will count toward the student and teacher TEK\$percentages since the teacher uses both student and teacher materials to plan and deliver instruction.
- x Content in a caption or sidebar cannot be used to satisfy the requirements for coverage of the TEKS

Order Processing Information and Official Bids

Purpose Official bids detail the overall program price, as well as individual component prices, of adopted instructional materials. Pricing will be in place for eighters with the option to extend for an additional fourears. Publishers must also inform Total Ahow they plan to process their orders.

You will need publisher bidding access in EMAT to submit your Order Processing Information of ficial bids. If you are new publisher, please review steetion.

Before you an submit any official bids, you must submit an Order Processing Information providing information on how you plan to process your orders. You may choose to use a depository or fulfill your own orders.

Typically, depositoriessean electronic datanterchange (EDI) compliant system to receive and fill orders. This will require additional setup and testing to ensure the depository and TEA can share files in appropriate formats. If you choose to use a depository that is not already set up with the Avill reach out with sample file formats and further information about setup.

If you choose not to use a depository, you must use EMAT. The new sales contact indicated on your Company Information Formill receive notifications of orders. You may alse an electronic data interchange (EDI) compliant system to receive and fill orders. See information above about additional setup for using EDI.

You are required to inform us of any changes in your plans.

The freight, shipping, and expenses associated **deflivering** the adopted instructional materials to the districts and charter schools will be paid by the state, subject to the requirements of the instructional materials contract.

Once you have provided your order processing information, you will be talk be built your official bids. By submitting an Official Bid, you are making an offer to provide a specific instructional materials package to districts and charters in Texas at a specific price. The Official Become Exhibit Aof the Texas Education Agen and Contract

A1 (s)6 (iv)-1.5 (el1 1 se1.7 ((m)1.1 (e)-4.7 v(s)-4.4.1 (ed(du)-5.2(a)-1.9)-4.7 (i)-0.6 (.1 (eJ-0.001 Tcbid(r)-0.7)

TheOfficial Bioshould also specify for whose use each component is intended (student, teacher, or teacher system) media format of each component (print, online, etc.), the system requirements for each component (if different from the overall proam), and whether each component is consumable.

The system requirements should include the

- x specific type of device required, such as a PC, windows tablet, iPad, Chromebook, etc.
- x oldest operating system or version supported d
- x newest operating system or version supported.

The system requirements must be final. If you wish to update your system requirements, please notify TEA.

Each bid must have a unique program ISBN and each component and subcomponent must have unique ISBNs. This can present a challenge if you offer the sauckage and/or component for varying subscription lengths (e.g., one year, four years, eight years, etc.). If you do not use EDI to process your orders, you may choose to add a threligit extension to the end of the 10 gigit ISBN (fr example, 9780001234567001 for a one-year subscription or 9780001234567-004 for a four-year subscription using this option use the 13 digit ISBN for your eightearprogram You may also add an extension to distinguish the program ISBN from a component ISBNe(tample, 9780001234567-SE for a student edition or 9780001234567E for a teacher edition) from your eightearprogram and component.

The program and component titles must include enough informato allow districts to distinguish one title from another. To create more consistency, known established he naming conventions below.

Program Type	Format	Example
Includes one or more digital components and media format in the title	ProgramTitle # of Years)	TexasBiologyDigital Courseware (1 Yr)
Includes one or more digital components and non consumable print components	ProgramTitle (# of Years and Format)	TexasBiology(4 Yr Digital with Print)
Includes print consumables and one or moredigital components	ProgramTitle (# of Years Digital/# of Years Consumable)	TexasBiology(4 Yr Digital/4 Yr Print Consumable)
A teacher system	ProgramTitle (# of Students Served)	TexasBiologyClass Set (30 Students)

Publishers must provide pestudent pricing and information regarding volume discounts in the manner designated by TEA

After the first year of adoption, eightear bids will no longer be valid. If your ordering system allows you to reduce the price and number of subscription years associated with an ISBN, you should use the expiration of the subscription in the title rather than the length of the subscription in years for eight year bids. All other subscription lengths should include the number of years. For example, a one-year

subscription might be titled Texabiology Texas Edition (fear subscription) An eight-year subscription might be titled Texabiology, Texas Edition (Through SY 2032-18-3) but cannot change the number of subscription years and price associated with an ISBN, you can provide coptistic tual bid prior to the second year of adoption for a several subscription.

TheOfficial Bid must be submitted in EMAT. Failure to submit any bids by the initial deadline of Monday, August21, 2023 will serve as your notice to withdraw from the adoption process. You must submit at least one Official Bitbr each program by the initial deadline to be eligible to submit any additional bids (19 TAC §6.28(f)).

If you meet the initial bid deadline, you will be able to add bids in EMAT until Monday, November 2023. The option to submit additional bids can be new package options o0onewtAonnbootAsd fo resAT uidimi81 Tc6ocop.(a)\&&\(\delta\)(\&\(\delta\)(\&\(\delta\)
