- Resources, collaboration, networking
- Digital Learning Annual Conference (DLAC) -  
<https://www.deelac.com/>
  - February 13-15, 2023 in Austin, TX

# Myths and Misconceptions About Online Teachers

# Role of Online Teacher

- Facilitate and build an online community of learners
-

Ho (4)1.4 90 1 Tf36 -0 0 36 661.16.6 (s)4 907 90e

- 73% - 6+ years teaching
  - 22% - New w/ no training
  - 22% - > 10 hours training
  - 46% > 45 hours training
  - 54% Locally received
  - 30% HE delivered
  - 94% School/Org delivered
- 
- Most common type of training
    - Ongoing training sessions (81%)
    - Workshops (77%)
  - Most preferred
    - 53% Fully facilitated online
    - 49% Workshop format
  - 0-10 years experience - Graduate Courses
  - > 10 years experience – Graduate Courses least preferred

## PD Topics Most Wanted/Covered

### Most Wanted

- General Online Teaching and Learning
- Cyberbullying

# Support For Online Teachers

- Networks and bandwidth
-

## Supporting and Evaluating Online Teachers

- Monitor, evaluate and support online teaching
- Admin need to learn how to:
  - review online course delivery looking for and evaluating teachers' skills in:
    - developing online communities of learners
    - fostering online discussions
    - using online course delivery tools
    - creating an effective online voice and presence
    - providing adequate and frequent feedback
    - modifying online course content to meet individual student needs
    - selecting and using appropriate online tools to support online instruction

# Trends in Pre-Service Teacher Training

## United States

- 1.3% of US Universities prepare teachers of Next Gen Learning Models (Partnering for Success 2013)
- UCF, FLVS partnership for student teaching
- Michigan State University and Michigan Virtual School
- SUNY, and Univ. of MT pre-service programs

## Mexico

- all pre-service teachers trained to use digital content, given laptops, all content is digitized

## Singapore

- teachers trained to teach in blended environments (since 2005, SARS virus pandemic)

## China

- Training teachers to teach online to reach 100 million more students

## India

- Training teachers, digitizing content, see education as export opportunity

## International Baccalaureate (IB) program

- Master teachers to teach online and offering “gold standard” IB courses online

# Trends in Online Teacher PD

## Certificate programs in US

- Boise State University
- New Mexico State University

## State Departments of Education

- Georgia and Idaho - endorsements

## Non-profit organizations

- Quality Matters
- Virtual High School, Inc.

## Regional Service Centers

- Offering courses

## For-profit Companies

- Focused mostly on product rather than pedagogy

## Online Schools

- Still main provider of teacher PD, must develop on their own
- Inconsistencies in training outcomes, must expend additional resources

## Micro-credentials

- Hands on
- Demonstrate competency
- Non-biased reviewers/feedback

# New Focus

- More hybrid, including courses, less FT online
- Hybrid in many forms: alt ed, independent study, early college, etc.
- More synchronous
- Elementary growth and confusion
- Assisting with teacher shortages
- Special Student Populations – ELL, Special Education, Gifted
- SEL and relationships
- Funding Models

# Connect and learn from virtual learning leaders, providers, and educators
