G. Additional TEA Program Requirements

1. Stipend Recipient Recruitment: Describe the plan to recruit Education and Training teachers and field site teachers who are interested and eligible in participating in the program and receiving stipends. The plan must include strategies to equitably recruit diverse individuals and identify individuals with potential criteria including a demonstrated track record of success and/or achievement, involvement in student organizations and/or school activities, strong evaluation ratings, and strong relationships with students.

The grant leadership team will develop minimum criterion for the Education and Training and field site teachers to include indicators of success/achievement, involvement in student organizations and school activities, strong evaluation ratings and strong relationships with students. The criterion will be advertised, along with the program goals and requirements, to all teachers and discussed at faculty, grade level, department, and special programs meetings. Principals will stress the need for diverse candidates. Principal recommendations will be required. Our HR director will ensure that all criterion and the methods of communication agreed upon are legal, best practices. A diverse hiring committee will identify the best candidates from each campus based on the criterion set forth by the grant leadership team.

2. Program Implementation Support: Describe the types of support that will be provided to Education and Training teacher stipend recipients to ensure successful implementation of the curriculum and program. The definition of successful programming should align with the major goals/objectives of the program.

The high school principal will ensure that the Education and Training teacher receives all needed supports to ensure successful implementation of the program, seeking assistance/input from the grant leadership team as needed and sharing program results at least quarterly (student-, teacher-, and program-level) to identify and address any challenges quickly. Supports will include, at minimum, access to all required training, dedicated time to plan and implement the program/participate in grant activities, scheduling that supports an effective program, coaching from the appropriate expert as needed, access to all materials needed to successfully implement the program, assistance in building and nurturing partnerships with field experience teachers and universities, and time to participate in grant planning and evaluation.
