5. Describe how each of the campuses will be supported by the grant program, if awarded, currently conduct behavioral threat assessments and how the campus will incorporate current systems into the student support team structure.

While the district has a variety of initiatives that address the triangulation of data that we have chosen to target within the grant, our hope is that by being awarded we can gain support and resources to find a cohesive way in which all elements can work seamlessly together with efficacy in the student support team structure. While each element listed below adds merit to the district's initiative to address safety, social & emotional wellbeing and student engagement, the collective initiatives has not been fully realized. Our hope is that a stronger connection to a team based approach for all initiatives will be realized through the Student Support Team Structure.
