Overview

Senate Bill 175, passed by the 81st Texas Legislature, allows The University of Texas at Austin to limit automatic admission to 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students.

The University has determined that it will automatically admit all eligible summer/fall 2026 and spring 2027 freshman applicants who rank within the top 5% of their high school graduating classes. A letter from University President Jay C. Hartzell is attached to this correspondence.

School systems should share this information with all high school junior-level students and their parents.
