Planning for Back to School: Remote Asynchronous High School Model

This school model is a remote model

On-campus	Remote	Hybrid
Student plans e		

Note: Local (and national) health guidance should be prioritized relative to any of the examples included

Remote Asynchronous HS Model Overview

Synchronous instruction
Asynchronous instruction

Dimensions

Sync. Instruction & Supports
Academic supports
Enrichment instruction

All student and family supports and enrichment instruction are synchronous

Note: Local (and national) health guidance should be prioritized relative to any of the examples included

Student Experience

Student Schedule

Illustrative 9th grade daily student schedule

Note: Local (and national) health guidance should be prioritized relative to any of the examples included

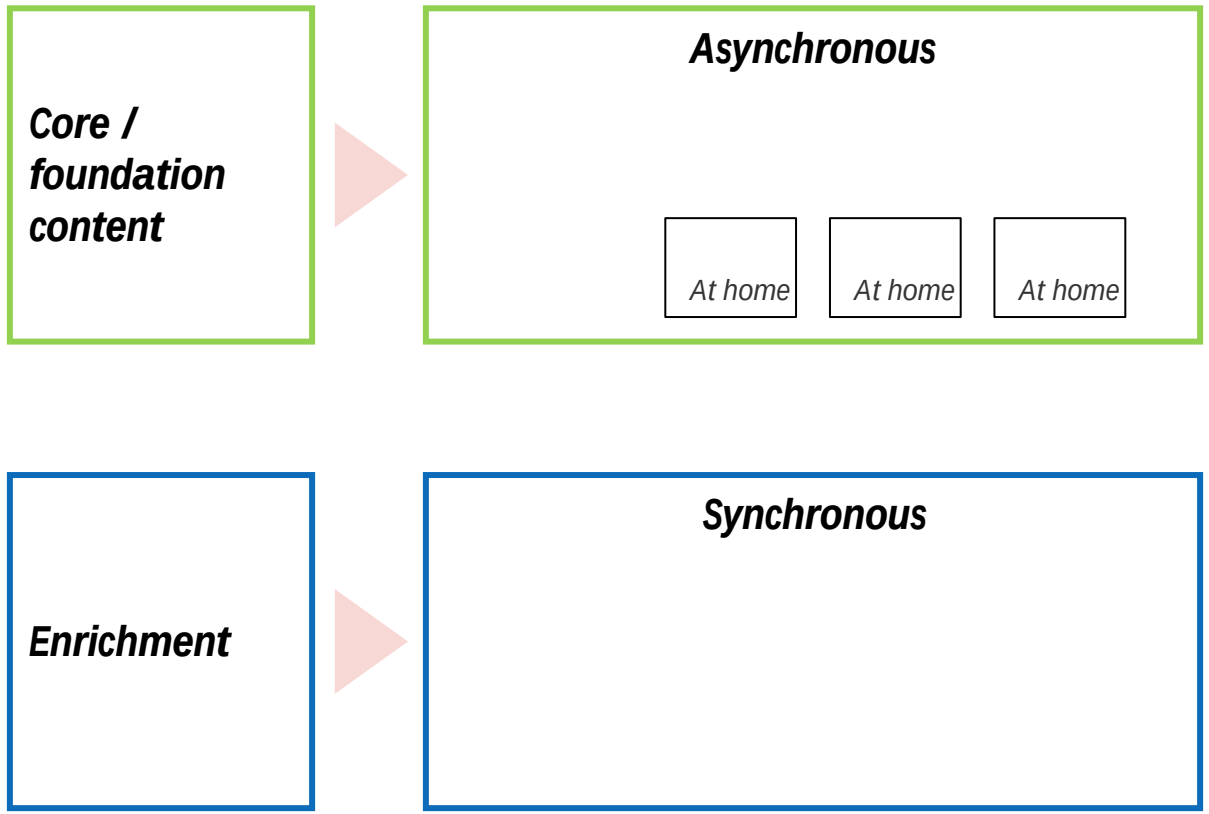
Staff Deployment

Note: Local (and national) health guidance should be prioritized relative to any of the examples included

Remote Asynchronous HS Model

Synchronous instruction
Asynchronous instruction

Academic Delivery



Core / foundation instruction is delivered **asynchronously** and implemented by the district's content support team

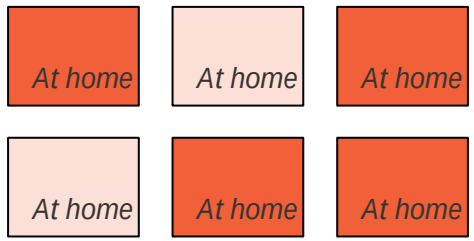
Synchronous time with lead teachers and enrichment instructor team is used for:

- Small group support / bootcamp sessions
- Instruction of enrichment courses
- Tutoring and advising

Note: Local (and national) health guidance should be prioritized relative to any of the examples included

Remote Asynchronous HS Model

Curriculum and Progress Monitoring



District plans to adopt a remote curriculum where students alternate between STEM and humanities focused content weeks

Daily student engagement is defined through:

- **Progress in the LMS** through computer-based core / foundation instruction
  - Weekly quizzes will measure student progress
- **Student teacher interactions** are set up regularly between students and their corresponding lead teacher

Note: Local (and national) health guidance should be prioritized relative to any of the examples included

Remote Asynchronous HS Model

Family Engagement

Lead teachers

Tech support

Content support team

Lead teachers will notify families **weekly on student progress**, and also conduct **regular check-ins** by phone

- Content support team will also host **trainings / webinars** to aid families on how to best support and facilitate at-home asynchronous learning
- Families are encouraged to monitor their student's academic progress and wellbeing; can share updates with lead teacher

Parents get full access to school's **IT help desk, Call Center, and Support Center**

- Parents can **track student progress online through parent portal on LMS**

Note: Local (and national) health guidance should be prioritized relative to any of the examples included
